Studying **Early Childhood Education and Care**

"Rhodes International College is one of the newest and best colleges in Sydney and is great for people who love to stay in the city like me. The staff and trainers are very welcoming to all students, they are lovely and I enjoy studying here. One of the best things that makes me really interested to study here is the way my trainers bring the material and the way she teaches us in class. Honestly, I never feel bored because our lovely trainer has a thousand ideas to make us happy, this way I am easily able to understand the materials."

"Rhodes International College not only focuses on study but they also care about the students. All of the staff are lovely and very easy to talk to. The teacher is the absolute most top notch teacher I have ever met throughout all my years of studying. They will make sure you understand all the materials. Even they would do extra hours just to make sure we are ready to go to placement. It's such a good campus for quite a good price."
